

ANEXOS

Anexo A: Bibliografía

- J. Rifkin. *La economía del hidrógeno. La creación de la red energética mundial y la redistribución del poder en la Tierra.*
- World Energy Outlook 2002.* Agencia Internacional de la Energía.
- World Energy Outlook 2004.* Agencia Internacional de la Energía.
- World Energy Technology and Climate Outlook.* Comisión Europea.
- T.N. Verziroglu y F. Babir. *Hydrogen: The Wonder Fuel.* International Journal of Hydrogen Energy, 17,391 (1992).
- Colin J. Campbell, Jean H. Laherrère. *The End of Cheap Oil,* Scientific American. Marzo 1998.
- Third Assessment Report desarrollado por el IPCC (Grupo Intergubernamental sobre Cambio Climático)
- La captura del carbono. Un proceso vital para la mantención de la vida.* Fundación Chile para el Ministerio de Educación.
- Safety Standard for Hydrogen and Hydrogen Systems.* National Aeronautics and Space Administration (NASA).
- L. M. Crosbie and D. Chapin. “*Hydrogen Production by Nuclear Heat*”. GENES4/ANP2003, Sep. 2003, Kyoto, Japón.
- A. J.Konopka and D. P.Gregory. *Hydrogen Production by Electrolysis: Present and Future.* Institute of Gas Technology, Chicago, Illinois 60616.IECEC 1975 Record.
- A. L. Vance, J. W. Trent, E.F. See and R. S. Glass. “*High-Efficiency Steam Electrolyzer*”. Lawrence Livermore National Laboratory.
- Padro, C.E.G. and Putsche, V., *Survey of the Economies of Hydrogen Technologies.*
- D. A. Bowen, F. Lau, R. Zabransky, R. Remick, R. Slimane, S. Doong. *Techno-Economic Analysis of Hydrogen Production by Gasification of Biomass.* Gas Technology Institute (GTI). Illinois. USA. 2003.
- James S. Cannon. *Clean Hydrogen Transportation: A market Opportunity for Renewable Energy.* REPP Issue Brief No.7, April 1997
- Mann, M.K. 1995. “Technical and economic analyses of hydrogen production via indirectly heated gasification and pyrolysis,” in Proceedings of the 1995 Hydrogen Program Review, Vol. 1,NREL/CP-430-20036-Vol. 1, pp. 205-236.
- Evans, R; E Chornet, S. Czernik, C. Feik, R. French, S. Philips, J. Abedi, Y. Yeboah, D. Day, J. Howard, D. McGee and M. Realff (2002), *Renewable hydrogen production by catalytic steam reforming of peanut shells pyrolysis products,* American Chemical Society (ACS) Paper presented at the Annual ACS Meeting, Boston, MA.
- Spritzer , M.H. and G.T. Hong. *Supercritical Water Partial Oxidation.* Poster paper at the Annual Peer Review Meeting, U.S. DOE Hydrogen Program, Berkeley, CA, May 2003;

- Ali T-Raissi . *Analysis of Solar Thermochemical Water-Splitting Cycles for Hydrogen Production*. University of Central Florida. Florida Solar Energy Center (FSEC). 2003.
- L. C. Brown, G. E. Besenbruch, K. R. Schultz (General Atomics), A. C. Marshall, S. K. Showalter,,P. S. Pickard (SNL), J. F. Funk (Univ of Kentucky). *Nuclear Production of Hydrogen Using Thermochemical Water-Splitting Cycles*. International Congress on Advanced Nuclear Power Plants (ICAPP) Embedded Topical Meeting, June 9–13, 2002, Hollywood, Florida.
- M. Silva Pérez. *Aprovechamiento de la energía solar en media y alta temperatura. Sistemas termosolares de concentración*. Dpto de Energética y Mecánica de Fluidos. Escuela Superior de Ingenieros. Universidad de Sevilla. 2002
- D. B. MacQueen, A. Hirschon, T. Mill, y M.Coggiola. *Discovery of Photocatalysts for Hydrogen Production*. SRI International. DOE. 2003
- J. A. Turner, J. Beach, T. Deutsch. “*Photoelectrochemical Systems for H₂ Production*”. National Renewable Energy Laboratory (NREL).
- E. L. Miller, D. Paluselli, B. Marsen, R. Rocheleau. “*Photoelectrochemical Hydrogen Production*”. Hawaii Natural Energy Institute, University of Hawaii at Manoa (UH)
- Pamela L. Spath Margaret K. Mann. *Life Cycle Assessment of Hydrogen Production via Natural Gas Steam Reforming*. National Renewable Energy Laboratory (NREL).
- Pamela L. Spath Margaret K. Mann. *Life Cycle Assessment of Renewable Hydrogen Production via Wind/Electrolysis: Milestone Completion Report*. National Renewable Energy Laboratory (NREL).
- W. A. Amos. *Costs of Storing and Transporting Hydrogen*. NREL. 1998
- K. Heung, J. Congdon. *Encapsulated Metal Hydride Separation Membrane Development*. Westinghouse Savannah River Technology Center. South Carolina. DOE 2003
- Proyecto HISTORY (Hydrogen Storage in Hydrides for Safe Energy Systems)
References: ENK6-CT-2002-00600
- A. W. McClaine, Dr. R. W. Breault, C. Larsen, Dr. R. Konduri, J. Rolfe, F. Becker, G. Miskolczy. *Hydrogen Transmisión/Storage with metal hydride-organic slurry and advanced chemical hydride/hydrogen for PEMFC vehicles*. Thermo Technologies. DOE 2003
- Heben, M.J.; Dillon, A.C.; Gilbert, K.E.H.; Parilla, P.A.; Gennett, T.; Alleman, J.L.; Hornyak, G.L.; Jones, K.M. *Hydrogen in Materials and Vacuum Systems*; American Institute of Physics, 2003; Vol. CP671, 77.
- Channing Ahn. *Hydrogen Storage in Metal-Modified Single-Walled Carbon Nanotubes*. California Institute of Technology. DOE 2003
- Ragaiy Zidan, Apparao M. Rao, Ming Au. *Doped Carbon Nanotubes for Hydrogen Storage*. Hydrogen Technology Laboratory. Savannah River Technology Center (SRTC). DOE 2003
- L.J.M. Blumen y M.N. Mugerwa. *Fuel Cell Systems*. Plenum Press. Nueva York. 1993

F. Alcalde Monterrubio y O. M. Crespo. Departamento de Energía, CIDETEC, Centro de Tecnologías Electroquímicas. Donosita-San Sebastián.

“Well-to-Wheel Analysis of Energy Use and Greenhouse Gas Emissions of Advanced Fuel/Vehicle Systems – A European Study,” by General Motors, Ludwig Bolkow Systemtechnik, BP, ExxonMobil, Shell, and TotalFinaElf, May 2002

“Well-to-Wheel Energy Use and Greenhouse Gas Emissions of Advanced Fuel/Vehicle Systems – North American Analysis,” by General Motors, Argonne National Laboratory, BO, ExxonMobil, and Shell, June 2001.

Hidrógeno Seguridad y Normalización. “Hidrógeno y Pilas de Combustible” EOI, Sevilla. 21-22 de Junio de 2004.
