

BIBLIOGRAFÍA

Libros

1. - **Robert D. Adams and William C. Wake**

Structural adhesive Joints in Engineering

2. - **Federico París, José Cañas, Juan Carlos Marín y Alberto Barroso**

Introducción al análisis y diseño con materiales compuestos

3. - **Michael C. Y. Niu**

Composite airframe structures. Practical design information and data

4. - **L. J. Hart-Smith CR-2218 (1974)**

Analysis and design of advanced composite bonded joints

Referencias

1. - Norma **ISO-4587**

Adhesives – Determination of tensile lap-shear strength of rigid-to-rigid bonded assemblies

2. - **Kennerly H. Digges**

Development of the shim joint concept for composite structural members

3. - <http://www.adhesivestoolkit.com/Docs/test/MECHANICAL> TEST METHOD

4. - <http://www.gurit.com>
